

# Attacking Satan

By Neville Salvetti

This teaching applies to Christians and the things over which you are steward.

Satan is a defeated foe and was made captive at Calvary and all captives are sent to a jail, which for Satan is hell. This is his kingdom and if he comes to earth he can be sent to Jesus for leaving his prison, regardless of what else he is doing, or what other rights he claims to have.

It is like sending someone to jail for theft, even though you know they have murdered. He goes to jail for the lesser offence and the more major offence does not count.

Also, Satan is a thief, and a thief has to pay back 7 times what they stole. Satan takes away your peace, damages or destroys your property, so must pay back 7 times what he took.

Also there is no battles as he was defeated at Calvary.

We attack Satan because all demons do his will. We attack territorial spirits and demonic princes because they agree to demons doing the will of Satan and are in control of demons on his behalf.

So any attack is as follows:

First remove the demon for escaping from prison.

Second punish them for the activity.

Thirdly you heal the damage.

Command:

**Satan, you have escaped from your prison and have no right to be here (insert person, property, activity or whatever else you are attacking) so for this I command you in Jesus Name to go to The lord Jesus to be dealt with and take all you did with you.**

**I command you, the territorial spirit and any demonic prince involved suffers seven times the equivalent of what the (insert person, property, activity or whatever else you are attacking) suffered until all you took from them is restored in accordance with the directions of Jesus.**

**In Jesus' Name I command healing and restoration and ask you Holy Spirit to replace the demons that have gone.**

**Thank you, Father, Lord Jesus, Holy Spirit.**

**Amen.**
