

It's time to take the offensive!

There should be at this moment a massive campaign by all Americans who still love their country to impeach the present President Joe Biden and his Vice President Kamala Harris for the following reasons:

- I. Because of his frail health Biden is not able to be our President at this difficult time.
- II. He is an enormous danger and security risk to the USA, because of the corrupt dealings with China (and Ukraine) by his son Hunter Biden and his whole family.
- III. The repeated incitement of political violence by Biden & Kamala is more than enough reason!

The Bible tells us in Psalm 35 (verses 7-8) that they who spread a net in front of the King, which they hate, will in the end fall into their own net of impeachment.

The net – which the democratic leadership has spread for so long without a legal basis against President Donald Trump – will haunt the Democrats.

Then they will see that the very net that they spread will now become their own downfall, as Jesus said, “With the measure you measure, it will be measured to you” (Matthew 7:2) and as King Solomon wisely said: “Answer the fool according to his own folly” (Proverbs 26:4-5).

Just as the Left, without any legal basis, has tried day and night to impeach President Trump, now it is the right time for a more serious approach - to relentlessly pursue a legal-based impeachment of Joseph Biden, Kamala Harris, and others!
